<b>Model No.</b>	
<b>Serial No.</b>	
<b>Label information</b>	
The model number (part number, serial number, power requirements and date) may be found on the back and on the bottom of the charging case.	
<b>Étiquette d'informations</b>	
Le numéro de modèle (numéro de référence, numéro de série, les spécifications d'alimentation, etc.) se trouvent sur le dos et le dessous du boîtier de charge.	
<b>Aufkleberangaben</b>	
Die Modellnummer (Teilenummer) und Seriennummer sowie Leistungsanforderungen usw. finden sich ggf. auf der Rückseite und Unterseite des Ladefalles.	
<b>Information om etiketten</b>	
Modellnumern, delnummren, seriennumr, strömkrävt och så vidare finns på baksidan och undersidan på laddningsfodralet.	
<b>Informazioni sull'etichetta</b>	
Il numero di modello (numero del componente), il numero di serie, i requisiti di alimentazione ecc. si trovano sul retro e sul fondo della base di ricarica.	
<b>Información de la etiqueta</b>	
El número de modelo (número de referencia), número de serie, requisitos de alimentación, etc. se encuentran en la parte posterior y en la parte inferior del estuche de carga.	
<b>Labelformatie</b>	
Het modelnummer (onderdeelnummer), serienummer, vermogensaanv. etc. kunnen worden aangetroffen op de bodem van de oplaadhouder.	
<b>Informações de etiqueta</b>	
O número de modelo (número da peça), número de série, requisitos de energia etc. pode ser encontrado na parte traseira e na parte inferior do estojo de carregamento.	
<b>Информация на этикетке</b>	
Номер модели (номер детали), серийный номер, требования к источнику питания и другие данные указаны на задней и нижней стороне чехла аккумулятора.	

**标签信息**

**可在充电盒背面和底部找到型号（部件号）、序列号、电源要求等信息。**

**標籤資訊**

**充電盒背後與底部都有型號（零件編號）、序號、功率需求等資訊。**

**라벨 정보**

**정보 (부품번호), 일련번호, 전원 요구 사항 등은 충전 케이스의 뒷면과 바닥면에 확인하실 수 있습니다.**

<b>Safety Brochure</b>	<b>EN</b>
<b>FCF NOTICE (U.S.A.)</b>	
IMPORTANT NOTICE: DO NOT MODIFY THIS UNIT! This product when installed as instructed in the instructions contained in this manual will comply with all applicable safety requirements. Modifications not expressly approved by Yamaha may void your authority, granted by the FCC, to use this product.	
IMPORTANT: When connecting this product to accessories and/or another product use only high quality shielded cables. Cable/s supplied with this product are not intended for use with any other product. Failure to follow instructions could void your FCC authorization to use this product in the USA.	
NOTE: This product has been tested and found to comply with the requirements listed in FCC Regulations, Part 15 for Class "B" digital devices. Compliance with these requirements provides a reasonable level of assurance that your use of this product in a residential environment will not result in harmful interference with other electronic devices. This equipment generates, uses and can radiate radio frequency energy and, if not used in accordance with the instructions found in the users manual, may cause interference harmful to the operation of other electronic devices. Compliance with FCC regulations does not protect you against fire, electric shock, or other hazards. Failure to follow instructions could void your FCC authorization to use this product in the USA.	
NOTE: This product has been tested and found to comply with the requirements listed in FCC Regulations, Part 15 for Class "B" digital devices. Compliance with these requirements provides a reasonable level of assurance that your use of this product in a residential environment will not result in harmful interference with other electronic devices. This equipment generates, uses and can radiate radio frequency energy and, if not used in accordance with the instructions found in the users manual, may cause interference harmful to the operation of other electronic devices. Compliance with FCC regulations does not protect you against fire, electric shock, or other hazards. Failure to follow instructions could void your FCC authorization to use this product in the USA.

<b>Fire warning</b>	
Do not place any burning items or open flames near the unit, since they may cause a fire.	
<b>Handling</b>	
Be careful not to drop or apply strong impact to this unit. Failure to observe this risk may cause the following malfunctions: <ul style="list-style-type: none"><li>Do not use the unit as a fire or hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.</li> <li>Do not use the unit in areas of high temperature surrounding environment, that can result in an explosion or the leakage of flammable liquid or gas.</li> <li>A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.</li></ul>	
<b>Do not disassemble</b>	
Do not disassemble or modify this unit. Failure to observe this may cause a fire, electric shocks, injury, or malfunctions.	
<b>Water warning</b>	
The charging case and the included USB power cable are not waterproof. Do not expose the unit to rain, use near water or in damp or wet conditions, or place on it any containers (such as vases, bottles or glasses) containing liquids which might spill onto any opening or place where water may drop. If water gets water getting into the unit may cause a fire, electric shocks, or malfunctions. When charging, make sure that the earphones are not wet. If they are, wipe them off with a dry cloth.	
Do not handle the charging case with wet hands. Failure to observe this may cause electric shocks or malfunctions.	
<b>Fire warning</b>	
Do not place any burning items or open flames near the unit, since they may cause a fire.	
<b>Wireless unit</b>	
Do not use this unit in areas where the use of radio waves is restricted. Radio generating this unit may affect electro medical devices. When using this unit on an airplane, follow the instructions of crew. Do not use this unit within 15 cm (6 in) of persons with a heart pacemaker implant or other medical devices. Do not use this unit with other electro medical devices, such as a heart pacemaker implant or defibrillator implant.	
Be careful not to drop or apply strong impact to this unit. Failure to observe this risk may cause the following malfunctions: <ul style="list-style-type: none"><li>Do not use the unit as a fire or hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.</li> <li>Do not use the unit in areas of high temperature surrounding environment, that can result in an explosion or the leakage of flammable liquid or gas.</li> <li>A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.</li></ul>	
<b>CAUTION</b>

**COMPLIANCE INFORMATION STATEMENT (Supplier's declaration of conformity procedure)**

Responsible Party: Yamaha Corporation of America

Address: 6600 Orangeborough Avenue, Buena Park, CA 90620

Telephone: 714-522-9011

Type of Equipment: Truly Wireless Earphones

Model Name: TW-ETA

This device complies with Part 15 of FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

The available scientific evidence does not show that any health powers are associated with low power wireless devices. There is no proof, however, that these low power wireless devices are absolutely safe. Low power Wireless devices emit low levels of radio frequency (RF) in the microwave range while being used. Wireless devices that do not produce health effects by heating tissue, therefore, are considered safe. However, low power wireless devices that do not produce health effects causes no known adverse health effects. Many studies of low-level RF exposures have not found any biological effects. Some studies have suggested that some biological effects occur, but such findings have not been confirmed by additional research. TW-ETA has been tested and found to comply with FCC radiation exposure limits set forth for an uncontrolled environment and meets required testing of specific absorption rate (SAR).

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt (SISSE). Operation is subject to the following two conditions:
1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

The available scientific evidence does not show that any health powers are associated with low power wireless devices. There is no proof, however, that these low power Wireless devices are absolutely safe. Low power Wireless devices emit low levels of radio frequency (RF) in the microwave range while being used. ## PRECAUTIONS

**PLEASE READ CAREFULLY BEFORE USE. BE SURE TO FOLLOW THESE INSTRUCTIONS.**

The precautions listed below are to prevent risk of harm to the user and others, as well as to prevent property damage, and to help the user use this unit properly and safely. Be sure to read these instructions carefully.

**After reading this manual, be sure to keep it in a safe place where it can be referenced at any time.**

- Be sure to request inspections or repairs from the dealer where you purchased the unit or from qualified Yamaha service personnel.
- Yamaha cannot be held responsible for injury to you or damage of the products caused by improper use or modifications to the unit.
- This product is for ordinary homes. Do not use for applications requiring high reliability, such as managing lives, health care or high-value assets.

## WARNING

**This content indicates "risk of serious injury or death"**

**Handling**

Do not listen with the earphones or headphones while driving or cycling. Also avoid using them when hearing must not be impaired, like at a railroad crossing and at a site of construction. Reduced ability to hear surrounding sound increases the risk of an accident.

**If you notice any abnormality**

- If any of the following abnormalities occur, stop using the device immediately.
  - An unusual smell, unusual sound or smoke is emitted from the unit.
  - Foreign material or water gets into the interior of the unit.
  - The unit produces any of the following symptoms:
    - Risk of burns or injuries
    - There is a crack or damage to the unit.
    - The unit is cracked.
- Continued use of a defective charge electric shock, a fire, or malfunctions. Immediately request an inspection or repair from the dealer where you purchased the unit or from qualified Yamaha service personnel.

### Charging

Be sure to use the supplied USB power cable. Failure to observe the above may also cause a fire or explosion.

To charge the charging case, connect it to the USB port of a commercially available USB power adapter (5 VDC/min, 0.5 A output). Incorrect connection may cause fire.

Never charge while the unit is wet. Doing so may cause electric shock, fire, or malfunction due to short circuiting.

Do not do anything that could damage the supplied power USB power cable.

Never charge when the unit is wet. Doing so may cause electric shock, fire, or malfunction due to short circuiting.

Do not do anything that could damage the supplied power USB power cable.

Do not place it near a heater.

Do not bend it excessively or alter it.

Do not scratch it.

Do not place it under a heavy object.

Using the power cord with the core of the cord exposed could cause electric shocks or a fire.

**Battery use**

Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.

Do not use the unit in areas of high temperature surrounding environment, that can result in an explosion or the leakage of flammable liquid or gas.

A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

Do not disassemble or modify this unit.

Failure to observe this may cause a fire, electric shocks, injury, or malfunctions.

**Water warning**

The charging case and the included USB power cable are not waterproof.

Do not expose the unit to rain, use near water or in damp or wet conditions, or place on it any containers (such as vases, bottles or glasses) containing liquids which might spill onto any opening or place where water may drop. If water gets water getting into the unit may cause a fire, electric shocks, or malfunctions. When charging, make sure that the earphones are not wet. If they are, wipe them off with a dry cloth.

Do not handle the charging case with wet hands. Failure to observe this may cause electric shocks or malfunctions.

**Fire warning**

Do not place any burning items or open flames near the unit, since they may cause a fire.

**Wireless unit**

Do not use this unit in areas where the use of radio waves is restricted. Radio generating this unit may affect electro medical devices. When using this unit on an airplane, follow the instructions of crew.

Do not use this unit within 15 cm (6 in) of persons with a heart pacemaker implant or other medical devices. Do not use this unit with other electro medical devices, such as a heart pacemaker implant or defibrillator implant.

Be careful not to drop or apply strong impact to this unit. Failure to observe this risk may cause the following malfunctions:

- Do not use the unit as a fire or hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Do not use the unit in areas of high temperature surrounding environment, that can result in an explosion or the leakage of flammable liquid or gas.
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

**CAUTION**

**This content indicates "risk of injury"**

**Handling**

Be careful not to drop or apply strong impact to this unit. Failure to observe this risk may cause the following malfunctions:

- Do not use the unit as a fire or hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Do not use the unit in areas of high temperature surrounding environment, that can result in an explosion or the leakage of flammable liquid or gas.
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

**CAUTION**

**This content indicates "risk of injury"**

**Handling**

Be careful not to drop or apply strong impact to this unit. Failure to observe this risk may cause the following malfunctions:

- Do not use the unit as a fire or hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Do not use the unit in areas of high temperature surrounding environment, that can result in an explosion or the leakage of flammable liquid or gas.
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

**CAUTION**

**This content indicates "risk of injury"**

**Handling**

Be careful not to drop or apply strong impact to this unit. Failure to observe this risk may cause the following malfunctions:

- Do not use the unit as a fire or hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Do not use the unit in areas of high temperature surrounding environment, that can result in an explosion or the leakage of flammable liquid or gas.
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

**CAUTION**

**This content indicates "risk of injury"**

**Handling**

Be careful not to drop or apply strong impact to this unit. Failure to observe this risk may cause the following malfunctions:

- Do not use the unit as a fire or hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Do not use the unit in areas of high temperature surrounding environment, that can result in an explosion or the leakage of flammable liquid or gas.
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

**CAUTION**

**This content indicates "risk of injury"**

**Handling**

Be careful not to drop or apply strong impact to this unit. Failure to observe this risk may cause the following malfunctions:

- Do not use the unit as a fire or hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Do not use the unit in areas of high temperature surrounding environment, that can result in an explosion or the leakage of flammable liquid or gas.
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

**CAUTION**

**This content indicates "risk of injury"**

**Handling**

Be careful not to drop or apply strong impact to this unit. Failure to observe this risk may cause the following malfunctions:

- Do not use the unit as a fire or hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Do not use the unit in areas of high temperature surrounding environment, that can result in an explosion or the leakage of flammable liquid or gas.
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

**CAUTION**

**This content indicates "risk of injury"**

**Handling**

Be careful not to drop or apply strong impact to this unit. Failure to observe this risk may cause the following malfunctions:

- Do not use the unit as a fire or hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Do not use the unit in areas of high temperature surrounding environment, that can result in an explosion or the leakage of flammable liquid or gas.
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

Be careful not to drop or apply strong impact to this unit. Failure to observe this risk may cause the following malfunctions:

- Do not use the unit as a fire or hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Do not use the unit in areas of high temperature surrounding environment, that can result in an explosion or the leakage of flammable liquid or gas.
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

**Notice regarding use**

For information on replaceable parts, such as ear tips, consult your Yamaha dealer.

Your ears may tingle in geographical locations where the air is very dry. This is not a malfunction of the earphones, but is caused by static electricity on your skin or a dry, arid environment.

Not charging in a long period of time may shorten the battery life. Charge the unit and charging case once every six months.

**Warranty policy for U.S., Canada and Australia customer**

Please visit our website for details.

U.S.: <https://usa.yamaha.com/>.

Canada: <https://ca.yamaha.com/en/index.html>.

Australia: <https://au.yamaha.com/>.

<b>Brochure sur la Sécurité</b>	<b>FR</b>
<b>AVIS IC (Canada)</b>	
L'emetteur/recepteur avertis de licence contenu dans le présent appareil est conforme aux prescriptions d'usage des appareils sans fil de la FCC. L'exploitation est autorisée aux deux conditions suivantes: 1. L'appareil ne doit pas produire de brouillage. 2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.	
Les connaissances scientifiques dont nous disposons n'ont mis en évidence aucun problème de santé associé à l'usage des appareils sans fil à faible puissance. Nous ne sommes pas en mesure de prouver que ces appareils sans fil ni la faible puissance sont entièrement sans danger. Les appareils sans fil à faible puissance émettent une énergie fréquence radioélectrique (RF) faible dans les secteurs des micro-ondes lors des utilisations. Alors qu'une dose élevée de RF peut avoir des effets sur la santé (en chauffant les tissus), l'exposition à de faibles RF qui ne produisent pas de chaleur ni pas de mauvais effets connus sur la santé est considérée comme sûre. Certaines études ont révélé des expositions aux RF faibles et n'ont découvert aucun effet biologique. Certaines études ont suggéré qu'il pouvait y avoir certains effets biologiques, mais ces résultats n'ont pas été confirmés. Les appareils sans fil de la FCC ont été testés et jugés conformes aux limites d'exposition aux rayonnements ISDE énoncées pour un environnement non contrôlé et respectent les règles d'exposition aux fréquences radioélectriques (RF) CFR 102.11E.	
FCC ID: VHW7E7A (Earphones sans fil) VHW7E7AC (Charging case) IC: 10565A-TWE7A	

## PRECAUTIONS D'USAGE

**LISEZ ATTENTIVEMENT AVANT DE PROCÉDER À TOUTE UTILISATION. VEUILLEZ A SUIVRE CES INSTRUCTIONS.**

Les précautions énumérées ci-dessous sont destinées à prévenir les risques pour l'utilisateur et les dommages matériels et à aider l'utilisateur à utiliser correctement l'unité conformément et en toute sécurité. Assurez-vous de suivre ces instructions.

**Après avoir consulté ce manuel, conservez-le dans un endroit sûr de façon à pouvoir vous y reporter facilement.**

• Veillez à faire inspecter ou réparer l'unité par le revendeur auprès duquel vous l'avez achetée ou par un technicien Yamaha qualifié.

• Yamaha décline toute responsabilité en cas de blessure ou d'endommagement des produits causés par l'utilisation incorrecte ou des modifications de l'unité.

• Ce produit est conçu pour un usage dans un cadre domestique ordinaire. Ne l'utilisez pas pour des applications nécessitant une haute fiabilité, telles que la gestion des crises essentielles, la vie, des soins de santé ou des biens de grande valeur.
